

Customers

As we all know, we are currently living in a rapidly changing environment but we wanted to reassure all of our customers that our operations are as per normal.

We do ask for your help though.

Beyond frequently washing your hands, avoiding touching your face and maintaining social distancing of 1.5 m there are a number of things you can do to help make our workshop safer.

Your part:

We ask our customers to turn off the heating and air conditioning system, so air is not blowing when we the key is turned on

Asking that there be no open drinks, straws, food, used tissues etc. in the vehicle.

Our part:

We will be entering your vehicle with gloves on and upon leaving your vehicle we will be wiping down your steering wheel, gear shifter and handbrake handle.

Customer's keys will also be wiped down – We will even wipe down the keys in front of you when handing the keys back so you can see they have been sanitized.

Although we won't be shaking your hand – being friendly is still and always will be in play at
